

Četrtek, 21. 4. 2016

**Program:**

- 08:50 Registracija udeležencev
- 09:00 Pozdrav udeležencem. Perkin Elmer v Sloveniji (mag. Anton Kovač)
- 09:10 HPLC and UPLC: different instrument designs for reliable separation and quantification of organic molecules (Ariovaldo Bisi)
- 10:10 High resolution, exact mass analyzer for LC-MS and Ambient Mass Spectrometry: principles of operation and application (Ariovaldo Bisi)
- 10:50 Odmor za kavo, sok
- 11:15 Sample preparation front-ends and MS detectors. Advanced solutions for the gas chromatographic analysis of environmental samples (Ariovaldo Bisi)
- 12:00 Highspeed Chromatography with microGC Technology- MicroGC Fusion the new dimension in GasChromatography (Hans-Peter John)
- 13:30 Uporaba HPLC v humani diagnostiki z rešitvami podjetja Chromsystems (mag. Anton Kovač)
- 14:00 Kosilo

Seminar bo potekal v dvorani Multiroom **restavracije Cmokač** v Ljubljani, Dolenjska cesta 242c.  
Potrdite vašo udeležbo po elektronski pošti na naslov [omega@omega.si](mailto:omega@omega.si).

Udeležba na seminarju je **brezplačna**.

Vljudno vabljeni!
